

Jacob White Glued Skillet

The simplicity of the Jacob White glued skillet design allows for both ends to be glued for maximum product security during transit.

Features

- 4 simple box flaps fold inwards after packing the product, with the final one glued securely in place
- Camera controlled precision flat bed hot foil blocking and die cutting

Options

- High quality, lithographic print, added value embellishment and finishing techniques
- variety of market-tested boards, finishes, formats and sizes
- Plain or printed, varnished, foiled, embossed/debossed

Benefits

- Additional layer of security and tamper evidence through the gluing of both ends
- Runs down automated lines, speeding up the packing process
- Benefit from our team's expertise for machine installation and engineering support services

Design for Sustainability

- Simplicity of design allows for minimal use of materials, saving cost and precious resources
- Benefit from our CAD layout know-how to find the best format to generate minimum waste
- FSC Certified materials available
- 100% recyclable
