

Rear Panel Dress Flap

A rear panel dress flap is a premium feature of your carton, concealing the cut edge at the front of the pack and adding more rigidity for a robust, qualitative feel.

Features

- A flap on the front of your carton's body is folded inwards and glued, presenting a printed edge and double-thickness panel
- High quality, lithographic print, added value embellishment and finishing techniques
- Camera controlled precision flat bed hot foil blocking and die cutting

Options

- Variety of market-tested boards, finishes, formats and sizes
- Plain or printed, varnished, foiled, embossed/debossed
- Option of how far the dress flap extends within the front of the pack
- Use in conjunction with the Lid Dress Flaps for a premium finish
- Choice of base type – crash lock, tuck lock, envelope or glued

Benefits

- Hiding the white cut edge gives a premium look and a uniform outer finish
- Double layered front panel gives a more robust feel to the pack
- Runs down automated lines, speeding up the packing process

Design for Sustainability

- Elevate your packaging without choosing less sustainable materials or increasing costs
- Benefit from our CAD layout know-how to find the best format to generate minimum waste
- FSC Certified materials available
- 100% recyclable
