

# Square Flap Skillet

The design of the square flap skillet allows for maximum surface area for overlap and gluing, ensuring product security and protection.

## Features

- 4 squared box flaps fold inwards after packing the product, with the final one glued securely in place
- Camera controlled precision flat bed hot foil blocking and die cutting

## Options

- High quality, lithographic print, added value embellishment and finishing techniques
- Variety of market-tested boards, finishes, formats and sizes
- Plain or printed, varnished, foiled, embossed/ debossed

## Benefits

- Squared flap shape ensures they fill the inner box space, creating maximum gluing area and more structural robustness
- Additional layer of security and tamper evidence through the gluing of both ends
- Runs down automated lines, speeding up the packing process

## Design for Sustainability

- Simplicity of design allows for minimal use of materials, saving cost and precious resources
- Benefit from our CAD layout know-how to find the best format to generate minimum waste
- FSC Certified materials available
- 100% recyclable
